PLASTIC SURGERY – SKIN CANCER AND MELANOMA

WEBINAR PROGRAM

100
YEARS OF CARE
1920-2020

DATE, TIME, LOCATION

Wednesday 4 November 2020, 7.00pm-8.00pm

TITLE Diagnosis and management of complex skin cancer and melanoma – danger signs to be wary of!

SPEAKERS [A/Prof Dean White](#), Plastic and Reconstructive Surgeon

FORMAT CPD Activity | Webinar | Presentation and Q&A

SESSION OVERVIEW

In this webinar, A/Prof White will discuss what to be wary of in assessment and diagnosis of skin lesions in the general practice setting:

Is it cancer? Is it really bad? What can I miss? When should I refer? Who do I refer to?
What can I do myself? What should I do myself? When should I refer?
Is there something I should do prior to referral? What happens after I send the patient off?
Do I stay involved? When do I take back over care?

LEARNING OUTCOMES

1. List red flags in skin cancer
2. Identify what to refer to a specialist
3. List three left field diagnoses in skin cancer and melanoma
