

Epworth GP education

BREAST CANCER

WEBINAR PROGRAM

DATE, TIME, LOCATION

Wednesday 17 February 2021, 12.30-1.30pm

TITLE Endocrine therapy in breast cancer – same same but a bit different

SPEAKER [Dr Kate Dunn](#), Medical Oncologist

FORMAT CPD Activity | Webinar | Presentation and Q&A

SESSION OVERVIEW

Dr Kate Dunn will discuss updates in the use of hormonal therapies for both early stage and metastatic breast cancer, and discuss what to watch for with the new class of drugs CDK4/6 inhibitors which are now standard of care and will be widely used with their new listing on PBS.

She will also aim to give a rapid tour of useful online resources for patient breast cancer risk counselling and supportive care during treatment.

LEARNING OUTCOMES

1. Display a working knowledge of new class of drug in first line therapy for metastatic breast cancer in all ER+ patients (CDK4/6 inhibitors)
2. Identify the best resources for monitoring cancer patients whilst on therapy and providing supportive care during all stages of the disease
