

‘Coordinating complex care – a case study approach’

Thursday 17th August 2023 | 7.00pm – 8.30pm

Accredited CPD activity | Webinar presentation with Q&A

OVERVIEW

Patients requiring complex care require synthesis of their overlapping issues and clear prioritisation of the approach. Epworth offers an ideal location for complex care with every speciality and procedure available, along with a strong multifaceted allied health team, to drive medical and functional outcomes.

PRESENTERS

Dr Ronan O’Donovan, General Medicine Physician

Dr George Heriot, Internal Medicine and Infectious Diseases Physician

CASE STUDIES

Outline case 1: (Dr Ronan O’Donovan) – raised inflammatory markers FI – goals of admission / selection of appropriate subspecialists and coordination of investigations/ ownership of patient/ discharge and follow up/ communication.

Outline case 2: (Dr Ronan O’Donovan) – discussion of management dilemma of young female with established gastroparesis, portacath and PEJ in situ, on morphine from a private physician for chronic pain syndrome, malnutrition, prev bacteraemia with environmental organisms.

Outline case 3 (Dr George Heriot) - a young woman with a plurality of diagnoses and specialists but a unitary explanation – the luxury and importance of inpatient assessment.

LEARNING OUTCOMES

- 1) Compare/ contrast internal medicine approach to complex care vs the GP model
- 2) Outline a patient group in your practice who would benefit from internal medicine input
