

## PSA TESTING AND IMPROVEMENTS IN PROSTATE CANCER DIAGNOSIS AND TREATMENTS

**THURSDAY 26th OCTOBER 2023 | 7.00pm – 8.00pm**

Accredited CPD activity | Webinar presentation with Q&A

### PRESENTER

**Dr Marlon Perera, Urologist**

### OVERVIEW

**PSA testing:** Over the past decade fluctuating recommendations for PSA testing has caused great confusion. Over the last few years, consensus has been reached via the major authoritative bodies for patients in Australia.

**Localised prostate cancer:** Dramatic improvements in prostate cancer risk stratification has enabled more tailored treatment approaches and a substantial reduction in the overtreatment of prostate cancer.

### LEARNING OUTCOMES

1. Highlight the current recommendations for PSA testing for patients in Australia, and briefly summarise the data that lead to the historic controversy
2. Outline the current diagnostic approach for prostate cancer assessments and contemporary treatment approaches based on risk stratification
