

HPB surgery and its innovation in 2023 – Case presentations of gallbladder, liver and pancreas diseases

THURSDAY 19th OCTOBER 2023 | 7.00pm – 8.30pm

Accredited CPD activity | Webinar presentation with Q&A

PRESENTERS

Mr Julian Choi, General and HPB Surgeon / Mr Osamu Yoshino, General and HPB Surgeon

OVERVIEW

Hepato-biliary-pancreatic surgery is making rapid progress worldwide to improve the outcome of hepato-biliary-pancreatic cancer. In addition, techniques such as robotic surgery have made remarkable progress.

In this webinar common presentations in liver, biliary and pancreas diseases will be discussed and the innovative management in HPB surgery, outlining the most updated surgical platforms which are available locally. Case presentations will be featured.

LEARNING OUTCOMES

1. Discuss common but complex liver, biliary and pancreas problems
2. Outline the benefits of robotic HPB surgery
