

Epworth Clinic presents this free education event
for practice managers and staff

Mental Health Emergencies in General Practice

What, how and where to?

Epworth Clinic invites frontline practice staff (including practice managers, nurses and administration teams) to a free online education session to learn about management strategies for mental health emergencies within their practice.

You will find out:

- > Immediate response strategies to manage distressed patients.
- > what community resources are available.
- > how to manage patient expectations about the mental health service system.

There will also be an opportunity for questions and answers to address specific concerns within your practice.

Event date and time

Wednesday, 9 September 2020

6pm – 7pm

Allow 30 minutes for the presentation followed by question time.

RSVP details

Email gpliaison@epworth.org.au by **Monday, 7 September 2020** to register.

Please provide your name, title, practice information and number of staff attending.

A link to the event will be emailed to you the day before the event.
