INCONTINENCE UPDATE

WEBINAR PROGRAM

DATE WEDNESDAY 2nd FEBRUARY 2022

TIME: 7.00pm – 8.15pm

SPEAKERS/TOPICS

Nocturia and Urinary Incontinence – How to assess and manage

*Presented by Mr Peter Wong and Mr Brad Newell, Urologists
Epworth Eastern*

OVERVIEW

Incontinence affects 1 in 4 Australians and is expected to increase over time with an ageing population. It has significant impacts on physical, mental and social health as well as having economic burdens such as healthcare costs, carer or supervisor costs as well as affecting an individual's overall quality of life. There are multiple types of incontinence and this webinar will specifically discuss Nocturia and Urinary Incontinence.

This webinar aims to go through the aetiology and different treatment options available for incontinence patients as well as discussing the importance of accurate diagnosis. Mr Peter Wong and Mr Brad Newell, Urologists will go through different case studies and approaches and offer their insights into the management of these conditions.

Hosted by Epworth Healthcare, this GP education webinar provides the opportunity for Q&A.

LEARNING OUTCOMES

1. Define the types of nocturia and their aetiology.
2. Understand how to clinically evaluate nocturia and the importance of correct classification for effective management and treatment outcomes.
3. Be able to define and understand the 3 main types of urinary incontinence
4. Understand the role of lifestyle, pharmacological and surgical treatment options for urinary incontinence.
