

DATE WEDNESDAY 23rd MARCH

TIME: 7.00pm – 8.15pm

SPEAKERS/TOPICS

Advances in Specialty Cancer Surgery

1. Should I be worried about this lump – when should a GP think about soft tissue sarcoma

Presented by A/Prof David Gyorki, Surgical Oncologist

2. The role of MRI and PSMA PET in the diagnosis of prostate cancer.

Presented by Dr Renu Eapen, Urologist

OVERVIEW

This webinar will go into detail about when GPs should be concerned about certain presentations and red flags in the context of soft tissue sarcoma and prostate cancer. One of the key messages conveyed in this presentation will be to highlight the importance of early diagnosis for the most likely chance of successful treatment.

LEARNING OUTCOMES

- 1) Identify the presentations and red flags for soft tissue sarcoma.
- 2) Recognise the role of MRI and PSMA PET in the diagnosis of prostate cancer.

REGISTRATION
