

## Anaesthetics – Scope of Clinical Practice

Clinical Institute: Critical Care

Procedure Name	Tier
Arterial and central venous cannulation	Tier A
Central neuraxial blockade (spinal, epidural)	Tier A
Conduction anaesthesia (major and minor nerve blocks)	Tier A
Consulting	Tier A
General neuroanaesthesia	Tier A
General Paediatric anaesthesia (ASA 1&2, > 1 yr old)	Tier A
Intracranial Neuroanaesthesia	Tier A
Intravenous sedation anaesthesia	Tier A
Management of Cardiac anaesthesia	Tier A
Management of General Anaesthesia	Tier A
Management of single lung anaesthesia	Tier A
Ophthalmic anaesthesia including eye blocks	Tier A
Pulmonary artery catheter insertion and management consultation	Tier A
Resuscitation (ALS accredited)	Tier A
Cardiothoracic Medical Perfusion	Tier B
Chronic Pain – diagnosis and management	Tier B
Complex paediatric anaesthesia ASA 3&4 <one year old	Tier B
Intrathecal pump placement	Tier B
Management of cardiac anaesthesia where cardiac bypass may be required	Tier B
Neonatal Anaesthesia	Tier B
Obstetric anaesthesia	Tier B
Spinal stimulation for pain	Tier B
Transoesophageal Echocardiography	Tier B
