

How to put on your PPE (donning)

> Put on PPE before patient contact and generally before entering the patient room

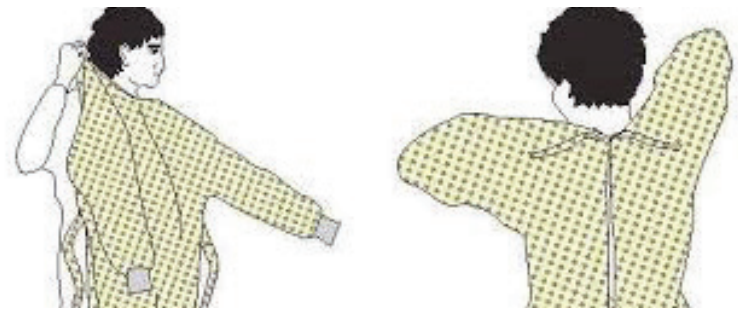

1

Hand hygiene - Wash hands or use an alcohol based hand rub (minimum 20 seconds)

2

Put on gown

- > Fully cover torso from neck to knees, arms to end of wrists, and wrap around the back.
- > Fasten at the back of neck and waist.

3

Put on mask

- > Secure ties or elastic bands at middle of head and neck.

4

Put on hair cover and eye protection or face shield

- > Put on hair cover
- > Place eye protection or face shield over face and eyes and adjust to fit.

5

Put on gloves

- > Extend to cover wrist of isolation gown.
